# SUBJECT INDEX TO VOLUME 18

Note: All notices for conferences, symposia, and meetings are under one heading: ANNOUNCEMENTS

Acetylator polymorphism, estimate of allele frequency in Libya and details of global distribution 325
Adenosine deaminase
  deficiency, prenatal diagnosis: case report 154
  polymorphism, associations at clinical level suggest role in cell functions and immune reactions 331
Agyria, hydrocephalus, pseudo-encephalocele, retinal dysplasia, and anterior chamber anomalies: case report 314
Allele, *Pi*$^{Pclifton}$, new $\alpha_1$-antitrypsin allele in American Negro family 43
Amniotic fluid cultures
  cell types in, SEM 223 *abst*
    mosaicism in 224 *abst*
  acetylcholinesterase, retrospective and prospective results 223 *abst*
    cholinesterases, inhibitors 220 *abst*
  *see also* Prenatal diagnosis
Anal atresia and the Klein-Waardenburg syndrome: case report 239
Anencephaly and spina bifida, differences between events preceding 17
Angio-oedema, hereditary, genetic study 221 *abst*
ANNOUNCEMENTS
    Athens International Conference on Dermatoglyphics, Athens, September 1981 324
    International clinical genetics seminar on skeletal dysplasia, 3rd, Athens, May 1982 324
    International Conference of Diabetes Mellitus, 2nd, Freiburg 9-11 April 1981 80
    Multidisciplinary seminar on spina bifida, Chicago, September 1981 324
    Workshop on Identification of Animal Models of Inborn Errors of Metabolism, Bethesda, October 1981 324
Antenatal diagnosis, *see* Prenatal diagnosis
Anterior chamber anomalies, hydrocephalus, agyria, pseudo-encephalocele, and retinal dysplasia: case report 314
Aqueduct stenosis, hydrocephalus resulting from, family study 252
Arachnodactyly syndrome, autosomal recessive 221 *abst*
Arthropathy and neuronal ceroid lipofuscinosis: family study 101
Asplenia and polysplenia syndromes with abnormalities of lateralisation in sibship 301
Autosomal
  dominant disorders, with undetermined penetrance, risk counselling in 340
    hypoparathyroidism, proband with concurrent nephrogenic diabetes insipidus 431
  late onset cerebellar ataxia, genetic aspects 436
  recessive arachnodactyly syndrome 221 *abst*
    syndrome with cardiomelic dysplasia with mesoaxial hexadactyly, 17-year-old boy and deceased sister: case report 151

Bladder, exstrophy, monozygotic twins discordant for 139
Bone dysplasias, Bristol Registry, first 10 years 256

Charcot-Marie-Tooth disease, family study, Edinburgh 219 *abst*
Chromosomes
  abnormal, dicentric, and amenorrhoea 218 *abst*
  homodicentric, distinctive type of dicentric chromosome 54
  metaphase, human, SEM 224 *abst*
  tetraploidy (92,XXYY) in liveborn infant with spina bifida and other anomalies: case report 309
  trisomy *see* Trisomy
  X 'fragile' in the Martin-Bell-Renpenning syndrome and in males with other familial mental retardation 366
  X, 'fragile', site on Xq28 associated with X linked mental retardation, FUdR induction 374
  XO/XY mosaicism and partial trisomy 9p in female: short report 482
  X;Y translocation which maps the Xg locus to Xp24→pter 218 *abst*
  Y, structural anomalies, localisation of male determining factors in man 161
Chromosome Group A translocation t(3;18)(p21;p11), familial, newborn male 119
Chromosome Group B translocation, reciprocal, double, 5;7, 5;12, in a normal mother and 5;7 translocation with a recombinant chromosome 5 in her normal child: case report 307
Chromosome Group C
  9, inversion, and ectodermal dysplasia in females 214
  pericentric inversion, and mosaic trisomy, normal psychomotor development: case report 390
  47,XY,del(11)(11pter→q21:),+mar(11qter→q21::?), absence of constitutive heterochromatin: case report 392
Chromosome Group D
  ring 14: distinct clinical entity: case report 304
    inheritance 209
  15 and 19 in Prader-Willi syndrome: case report 481
Chromosome Group E
  18p−syndrome with a single central maxillary incisor: case report 396
Chromosome Group G
  47,XX,+i(22)(q11) in 13-year-old girl: case report 61
  monosomy 22 with mosaicism: case report 71
Cleft lip and palate, and ectrodactyly in two half sibs: case report 394
Cleft palate, and Sprengel's shoulder, dominant transmission 263
Clinical Genetics Society, abstracts presented on 18 and 19 September 1980, Aberdeen 218: posters available 303
Cockayne's syndrome, clinical study of family 288
Collagen, inherited abnormalities: occasional abstract 142
Coloboma, genetic counselling 340
Congenital heart
  defects, common, risks to offspring of patients with 8
  disease, dermatoglyphs 344
CORRESPONDENCE
  Birth frequency of bilateral renal agenesis 158
  Fetal cells in the blood of pregnant mothers 321
  Gonadal dysgenesis with 46,X,Xt(qter→p221::p223→qter)karyotype 400
  Hereditary motor and sensory neuropathy 399
  Recurrence risk of neural tube defects 322
  Season and interval for recurrence of neural tube defects 484
Cystic fibrosis and the month of birth 299

Dental approach to carrier screening in X linked hypohidrotic ectodermal dysplasia: hypothesis 459
Dentinogenesis imperfecta, blue sclerae, and wormian bones without fractures, familial, another type of osteogenesis imperfecta 124
Dermatoglyphs
  in congenital heart disease 344
  unusual, and ring 17 chromosome—new syndrome: case report 234
Diabetes insipidus, nephrogenic, concurrent with autosomal dominant hypoparathyroidism 431
Diabetic mice, trehalase activity in 418
Diarrhoea, protracted, in infancy, family study 81
Dicentric sex chromosomes, and amenorrhoea 218 *abst*
Diplospermy II indicated as the origin of liveborn human triploid (69,XXX): case report 386
Distal symphalangism associated with camptodactyly 456
Donohue syndrome, *see* Leprechaunism
Down-mosaic Turner syndrome, congenital dislocation of the knees in: case report 148
Down's syndrome,
  antecedents in Shetland 218 *abst*
  associated with father's age in Norway 22
  temporal increase in rate of livebirths to older mothers, New York State 29
Duplication-deletion with partial trisomy 1q and partial monosomy 3p resulting from maternal reciprocal translocation rcp(1;3)(q32;p25): case report 64

Ectrodactyly, cleft lip and palate in two half sibs: case report 394
Ectodermal dysplasia
  in females and inversion of chromosome 9 214
  hereditary, olivopontocerebellar degeneration, short stature, and hypogonadism in two teenage children 335
  hypohidrotic, X linked, dental approach to carrier screening: hypothesis 459

Ectopia vesicae urinariae, monozygotic twins discordant for 139
Exostoses, multiple, hereditary: report of a kindred 428

Fetal skeleton, method for studying: technical note 262
Fibrodysplasia ossificans progressiva, genetics 221 *abst*
5-fluoro-2′-deoxyuridine induction of fragile site on Xq28 associated with X linked mental retardation 374
Friedreich's ataxia, 'pseudo-dominant' inheritance in 285

Galactose-1-phosphate uridyl transferase, mapping the structural gene for 223 *abst*
Genes for super-intelligence 410
Genetic(s),
  clinical, development 405
  counselling, evaluation of information-guidance 91
    for handicapped school leavers 350
    recurrence risks for neural tube defects in a clinic population 245
    risk in autosomal dominant disorders with undetermined penetrance 340
  factors in internal medicine, symposium 222 *abst*
Geneticists' mistakes 222 *abst*
Glucose-6-phosphate dehydrogenase, phenotypic and quantitative relationship of red cell acid phosphatase with 271
Gonadal dysgenesis
  structural aberration of X chromosome, karyotype-phenotype correlation: case report 228
  with 46,X,Xt(qter→p221::p223→pter) karyotype: correspondence 400

Haemoglobin, phenotypic and quantitative relationship of red cell acid phosphatase with 271
Haemorrhagic disorders, genetic factors 222 *abst*
Handicapped school leavers, genetic counselling for 350
Haptoglobin, phenotypic and quantitative relationship of red cell acid phosphatase with 271
Hermaphrodite, true, presumed to be XX/XO mosaic, clinicopathological and cytogenetic study 220 *abst*
Heterochromatin, constitutive, absence in partially identified supernumerary marker chromosome: case report 392
Hirschsprung's disease, children of those treated surgically 87
HLA
  and disease 223 *abst*
  localisation and partial trisomy: case report 231
  and renal transplantation: yet another approach: short communication 461
Homodicentric chromosomes, distinctive type of dicentric chromosome 54
Huntington's disease
  in west of Scotland 219 *abst*
  objective knowledge, attitudes towards predictive tests of persons at risk 31
  in Tanzania 200
Hydrocephalus
  agyria, pseudo-encephalocele, retinal dysplasia, and anterior chamber anomalies: case report 314
  congenital, in two pregnancies following birth of child with neural tube defect: aetiology and management 105
  resulting from aqueduct stenosis, family study 252
Hyperglycinaemia, non-ketotic, propionyl coenzyme A carboxylase deficiency presenting as: case report 156
Hypogonadism, short stature, ectodermal dysplasia, and olivopontocerebellar degeneration in two teenage children 335
Hypohidrotic ectodermal dysplasia, X linked, dental approach to carrier screening: hypothesis 459
Hypoparathyroidism, autosomal dominant, proband with concurrent nephrogenic diabetes insipidus 431
Hypothesis
  A dental approach to carrier screening in X linked hypohidrotic ectodermal dysplasia 459

Intelligence
  quotient, high, association with various genetic diseases 221 *abst*
  superior, association with certain disorders 410
Inversion chromosomes, trisomy 10p produced by recombination involving maternal inversion inv(10)(p11q26): case report 59
Ischaemic heart disease, genetics 222 *abst*

Juberg-Hayward (orocraniodigital) syndrome: case report 478

Klein-Waardenburg syndrome and anal atresia: case report 239
Knees, congenital dislocation, in child with Down-mosaic Turner syndrome: case report 148

Laboratory results, variations: short communication 463
Lepore/β-thalassaemia genotype, thalassaemia major resulting from, prenatal diagnosis: case report 476
Leprechaunism, pseudoleprechaunism, and the Patterson syndrome 294

Male determining factors in man, localisation, review of structural anomalies of Y chromosome 161
Marden-Walker syndrome, two brothers, case report and review 50
Meiotic behaviour of two human reciprocal translocations 362
Mental retardation,
  familial 'fragile' X chromosome in 366
  X linked, fragile X, site on Xq28, 5-fluoro-2′-deoxyuridine induction 374
Metaphyseal chondrodysplasia, retinitis pigmentosa, and brachydactyly: an affected brother and sister 46
Microcephaly, microphthalmia, cataracts, and joint contractures, syndromes of 129
Monosomy 22
  with mosaicism: case report 71
  partial and partial trisomy 21 detected prenatally 383
Mosaicism in amniotic cell cultures 224 *abst*
Motor neurone disease, epidemiology in Scotland 219 *abst*
Mucopolysaccharidosis VII, presentation in infancy: case report 237

Muscular dystrophy, Duchenne
translocation (X;6) in female, implications for the localisation of DMD locus 442
West Midlands, genetic study 1
Myotonic dystrophy and neurofibromatosis, coincidence in a kindred 134

Nephrogenic diabetes insipidus, concurrent with autosomal dominant hypoparathyroidism 431
Neu-Laxova syndrome and cerebro-oculo-facio-skeletal syndrome, relationship between 129
Neural tube defects,
congenital hydrocephalus in twin pregnancies following birth of child with 105
effect of prenatal diagnosis on reproductive history of women at increased risk from 221 *abst*
recurrence, rates, and vitamin supplementation 249: correspondence 322
risks in genetic counselling clinic population 245
season and interval: correspondence 484
Neurofibromatosis and myotonic dystrophy, coincidence in a kindred 134
Neuronal ceroid lipofuscinosis and arthropathy: family study 101
Neuropathy, motor and sensory, hereditary: correspondence 399
Niemann-Pick disease, prenatal diagnosis in twin pregnancy 359

Occasional abstract
Inherited abnormalities of collagen 142
Olivopontocerebellar degeneration, ectodermal dysplasia, short stature, and hypogonadism in two teenage children 335
Orocraniodigital (Juberg-Hayward) syndrome: case report 478
Osmotic fragility screening, one-tube method, effectiveness in detecting β-thalassaemia trait 266
Osteogenesis imperfecta
clinical and genetic patterns 222 *abst*
investigation of familial dentinogenesis imperfecta, blue sclerae and wormian bones without fractures as another type 124
Ovarian growth, retardation, in male-sterile mice carrying an autosomal translocation 414

Patterson syndrome, leprechaunism, and pseudoleprechaunism 294
Pfeiffer syndrome, variable expression in: case report 73
*Pi Pcliflon* allele, new $\alpha_1$-antitrypsin allele in an American Negro family 43
Poland-Möbius syndrome: case report 317
Polysplenia and asplenia syndromes with abnormalities of lateralisation in a sibship 301
Prader-Willi syndrome with chromosomal aberration: short report 481
Prenatal diagnosis
for adenosine deaminase deficiency: case report 154
effect on reproductive history of women at increased risk from neural tube defects 221 *abst*
of Niemann-Pick disease in twin pregnancy 359
partial trisomy 21 and partial monosomy 22: case report 383
of thalassaemia major resulting from Lepore/β-thalassaemia genotype: case report 476
of Turner's syndrome in conjunction with trisomy 20 mosaicism (45,X/46,X+20): case report 225, 219 *abst*
by ultrasound 220 *abst*
variation of laboratory results: short communication 463
*see also* Amniotic fluid cultures
Propionyl coenzyme A carboxylase deficiency presenting as non-ketotic hyperglycinaemia: case report 156
'Pseudo-dominant' inheritance in Friedreich's ataxia 285
Pseudo-encephalocele, hydrocephalus, agyria, retinal dysplasia, and anterior chamber anomalies: case report 314
Pseudoleprechaunism, leprechaunism, and the Patterson syndrome 294
Pterygium syndrome, multiple, two unrelated patients and review of literature 451

Radial aplasia, unilateral, and trisomy 22 mosaicism: case report 473
Red cell acid phosphatase, phenotypic and quantitative relationship with haemoglobin, haptoglobin, and G6PD phenotypes 271
Renal
agenesis, bilateral, birth frequency: correspondence 158
transplantation and HLA: yet another approach: short communication 461
Renpenning syndrome, *see* Martin-Bell-Renpenning syndrome
Retinal dysplasia, hydrocephalus, agyria, pseudo-encephalocele, and anterior chamber anomalies: case report 314
Retinitis pigmentosa, metaphyseal chondrodysplasia, and brachydactyly, affected brother and sister 46
Right ventricular outflow tract obstruction, risks to offspring of patients with 8
Ring chromosome 14: a distinct clinical entity: case report 304
inheritance 209
Ring 17 chromosome and unusual dermatoglyphs, new syndrome: case report 234
Risk counselling, *see* Genetic counselling
Rubinstein-Taybi syndrome, monozygotic twins discordant for: case report 312

Satellite associations resulting in non-random chromatid distribution at mitosis 218 *abst*
School leavers, handicapped, genetic counselling for 350
Short stature, ectodermal dysplasia, olivopontocerebellar degeneration, and hypogonadism in two teenage children 335
Skeleton, fetal, method for studying: technical note 262
Spina bifida
and anencephaly, differences between the events preceding 17
cystica and congenital vertebral anomalies, aetiological relationship 424
tetraploidy in a liveborn infant: case report 309
Spinocerebellar and cerebellar degeneration, clinical and genetic survey of 200 families 219 *abst*
Split foot/split hand syndrome, genetic counselling 340
Sprengel's shoulder with cleft palate, dominant transmission 263
Symmetrical infantile thalamic degeneration in two sibs 448
Symposium on genetic factors in internal medicine 222 *abst*

Talipes equinovarus, structural, congenital, confirmation of the multifactorial threshold model for 99
Technical note
A method for studying the skeleton of human fetuses 262
Tetraploidy in a liveborn infant with spina bifida and other anomalies: case report 309
Thalamic degeneration, symmetrical infantile, in two sibs 448
Thalassaemia,
β-types in southern Sardinia 196
detection, effectiveness of one tube osmotic fragility screening 266
interaction of α and δβ°: haematological features and globin chain synthesis analysis 40
major resulting from Lepore/β-thalassaemia genotype, prenatal diagnosis: case report 476
Translocations,
autosomal, retardation of ovarian growth in male-sterile mice carrying 414
de novo, clustering 220 *abst*
(X;6) in Duchenne muscular dystrophy, implications for localisation of DMD locus 442
reciprocal, double, 5;7, 5;12, in normal mother and 5;7 translocation with recombinant chromosome 5 in her normal child: case report 307
meiotic behaviour 362
rcp(1;3)(q32;p25), maternal, with son with duplication-deletion with partial trisomy 1q and partial monosomy 3p: case report 64
t(3;18)(p21;p11), familial, newborn male 119
X;Y which maps the Xg locus to Xp24→pter 218 *abst*
X;Y mapping Xg locus to Xp24→pter 224 *abst*
Trehalase activity in genetically diabetic mice 418
Triploidy, liveborn, (69,XXX), diplospermy indicated as origin: case report 386
Trisomy,
5 long arm, partial proximal, resulting from maternal insertion der ins(10;5): case report 465
6p, partial, 46,XX,—10,der(10),t(6;10), (p22;q26)pat and HLA localisation: case report 231
8(q21→pter), partial, phenotype with de novo translocation, two unrelated patients 204
9, complete, in two liveborn infants 377
mosaic, and pericentric inversion, with normal psychomotor development: case report 390
9p partial, and XO/XY mosaicism, in female: short report 482
10p produced by recombination involving maternal inversion inv(10)(p11q26): case report 59
12q, partial, newborn male: case report 144
report of a case and review: case report 470
14 mosaicism in a translocation 14q15q carrier: probable dissociation and isochromosome formation: case report 68
partial, familial: correspondence 158
15, newborn female: case report 146
16, partial for long arm: short report 483
20 mosaicism, prenatal diagnosis in conjunction with Turner's syndrome 219 *abst*
(45,X/46,X,+20) in conjunction with Turner's syndrome, prenatal diagnosis: case report 225
21, partial, and partial monosomy 22 detected prenatally: case report 383
Turner's syndrome
in conjunction with trisomy 20 mosaicism (45,X/46,X,+20), prenatal diagnosis: case report 225
*see also* Down's syndrome
prenatal detection in conjunction with trisomy 20 mosaicism (45,X/46,+20) 219 *abst*
Twin(s)
monozygotic, discordant for exstrophy of the urinary bladder 139
discordant for Rubinstein-Taybi syndrome: case report 312
pregnancy, prenatal diagnosis of Niemann-Pick disease 359

Ultrasound, prenatal diagnosis by 220 *abst*

Ventricular septal defect, risks to offspring of patients with 8
Vertebral anomalies, congenital, and spina bifida cystica, aetiological relationship 424
Vitamin supplementation, and recurrence rates for neural tube defects 249
